

CRAFT BEVERAGE

A POS designed specifically to highlight your craft.

Drive contagious loyalty with your guests and staff with a POS that helps run your brewing, distilling or fermenting business better.

With Arryved, you and your staff have the tools you need to greet every shift with confidence and every guest with open arms.

Plus, our pricing model reflects our commitment to your growth, providing your team with access to every product and feature we offer at no additional cost.

FEATURES OF NOTE

Our system was built for craft breweries and bars, so excelling at beverage service is an inextricable part of our identity. That means we have tools built to make your service smoother — at a cost that will help maximize your profits rather than eating away at them.

OFFLINE MODE

YOUR CORE BUSINESS IS BEVERAGES. OURS IS YOU.

Serving beverage-centric businesses is in our DNA. It's where we started, and businesses like yours will always have our heart.

So when it comes to new products and features, we always have your business in mind, and work hard to deliver what you need to keep your service absolutely seamless.

From guest ordering to inventory to kitchen management, our comprehensive point of service products can help improve your profit margins, and make business easier than ever.

THIRD-PARTY INTEGRATIONS

We know we're not the only tool you need to run your business — so we work seamlessly with the other products in your toolbox to help ease your workflow and aid you in avoiding double (or triple) entry. Because making your business run smoothly is at the heart of what we're committed to.

- **QUICKBOOKS** — Accounting Software
- **YELLOWDOG** — Inventory Management
- **SHOGO** — Accounting Integration Software
